My dear Hughes:

Just a line to let you know I haven't forgotten our recent get-to-gether and that your script is safe. I enjoyed so much my visit with you and the wife and hope you are both getting adjusted and the future looks bright with continuously improving health.

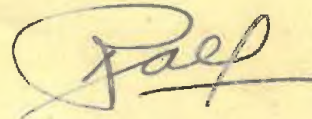

I think "PANYARED" is terrific and hope we can see a way to produce it in the near future. I think it could be done by a top-notch Little Theatre Group if they had thier own theatre and adequate vacilities - as a try-out.

The play got off to a fine start and I think we will be here a couple of months, at least, I hope so.

I wrote Chicago about royalty etc., for "BECK" and haven't, as yet, heard from them. I told them to write me as soon as the place and dates were set.

Best wishes to you and Lee -

Kindest personal regards,
